### **Job Description:**

Conducts toxicological reviews and risk assessments for the Toxicology Division of the Texas Commission on Environmental Quality (TCEQ). Conducts, reviews and coordinates risk assessments for criteria air pollutants. Communicates with the public, industry representatives, advocacy groups, agency staff, representatives of governmental agencies, legislative staff, and the academic community; provides expert testimony in legal proceedings such as public hearings; and participates in public meetings. Conducts and/or coordinates advanced toxicological evaluations to determine potential health risks associated with exposure to environmental contaminants, or other special projects, conducted either in-house or by independent contractors. Conducts and/or reviews the development of Effects Screening Levels in accordance with sound scientific principles and agency guidance. Conducts and/or reviews the health effects reviews of ambient air monitoring data and projects. Stays abreast of new toxicological data by attending teleconferences, professional conferences, training events, and by reading scientific literature. Conducts and/or reviews advanced risk assessments for site remediation. Develops media-specific cleanup levels and determines adequacy of data collected for use in risk assessments. Conducts and/or reviews the health effects reviews of air permit applications.

### **Military Occupational Specialty (MOS) Codes:**

68S, 60C, 67C, 71B, HM, 230X-SC, 4TOX1, 8E000, 9S100, and 43TX

### **Minimum Qualifications:**

A Master's degree from an accredited college or university with a major in toxicology, pharmacology, or a closely related field (COPY OF OFFICIAL TRANSCRIPT REQUIRED WITH APPLICATION), plus 2 years full-time experience in toxicology, pharmacology, risk assessment, or a closely-related field.

OR A Doctorate degree from an accredited college or university with a major in

toxicology, pharmacology, or a closely-related field (COPY OF OFFICIAL TRANSCRIPT REQUIRED WITH APPLICATION).

**Preferred Requirements:**

Ph.D. in Toxicology, Pharmacology, Cancer Biology, Biochemistry, Biology or closely related field.

Experience in performing research pertaining to human health or environmental toxicology.

Experience in communicating scientific issues to non-technical audiences.

Publication in a peer-reviewed journal.
